PROFESSIONAL SUMMARY

Computer Science undergraduate with a solid foundation in data analysis, database management, and programming. Proficient in MySQL, Python, and Excel, with experience applying analytical and problem-solving skills in academic projects. Passionate about extracting insights from data, identifying trends, and supporting data-driven decision making. Seeking a Data Analyst Internship to further develop technical expertise and contribute to organizational growth through effective data analysis.

TECHNICAL SKILLS

- **Programming:** Python
- **Data Analysis Libraries:** NumPy, Pandas, Matplotlib
- **Databases:** SQL, MySQL
- **Data Analytics:** Data Analysis, Data Cleaning, Data Visualization, Data Reporting
- **Tools:** Microsoft Excel (Pivot Tables, Pivot Charts, Slicers), Git, GitHub, VS Code

PROJECT EXPERIENCE

Coffee Shop Sales Dashboard

- Developed an interactive Excel dashboard to analyze sales, footfall, and customer purchasing behavior.
- Utilized Pivot Tables, Pivot Charts, and slicers to visualize sales trends and product performance.
- Generated insights from 149,000+ customer transactions to identify peak hours and top-selling products.
- GitHub: github.com/Hammas-Akhtar/Coffee-Shop-Sales-Dashboard

FNP Sales Dashboard

- Built an Excel dashboard analyzing 1,000+ orders and ₹3.5M+ revenue to track customer spending patterns.
- Used Pivot Tables, Pivot Charts, and slicers to analyze sales by occasion, category, and city.
- Presented key business insights through interactive visualizations and KPI metrics.
